Nienkämper introduces Instant Space™, the partition that performs a disappearing act

At a time when so many workplaces have to do more with less space, Nienkämper offers an innovative and elegant solution: a partition that virtually disappears when not in use. Instant Space™ is a portable ‘wall’ that completely retracts into a slender column of anodized aluminum. Opaque and sound-absorbent, this two-sided fabric screen can be used as dividing wall, or as a projection screen. Combining maximum flexibility with a minimal use of materials, Instant Space™ has countless applications in open-plan work environments and spaces that are used for a variety of purposes.
