Infinite sizes available to create anything needed.

Fingerprint Resistance Plastic-Laminate available options for the tops, cases and fronts.

Cern  
Calm and efficient for today's pace.

## CERN

Fig40

The Cern collection is a system that addresses contemporary office furnishing needs.

The multi-functional elements allow for seemingly endless combinations and configurations from individual offices and workstations to teamwork areas for more collaborative work. The table range includes modular tables and desks, bench desks as well as height adjustable options.

Cern offers a wide variety of office storage solutions. The credenzas and bookcases can either be freestanding or completely integrated with height adjustable or fixed tables. Cern is also capable of creating wall compositions; bookcases and credenzas can even be used as room dividers to create separate and distinctive work zones.

“Cern pairs timeless design with thoughtful functionality to create dynamic and inspiring spaces for the modern workplace.”

Cern embodies the warm-modern sensibility of today's working environment. Most notable about the Cern collection is its wide range of mixed materials and finish options that contrast and complement each other, which when layered creates unique and versatile workspaces and keeps things visually interesting; Laidback and casual for some areas, streamlined sophistication in others.
