The award winning GATEWAY™ Collection is expanding with the introduction of battery operated GATEWAY™ Height Adjustable tables. Designed to work with other Gateway™ designs, the new series can seamlessly change your working position from sitting to standing at the push of a button.

Gateway™ Height Adjustable tables can easily be adapted for open plan working environments, touchdown spaces, meeting tables and break out areas alike. Gateway™ includes multiple table options that also integrates flexible power, data and video connectivity. Table tops are available in wood veneer or laminate with optional eclectic privacy panels. Re-chargeable Battery discreetly mounted to the underside of the table makes re-configuration simple with no cords to manage. Available on glides or low profile locking casters. Optional upholstered privacy panels allows privacy in open environment.

Sizes: 60", 72", 84"L x 24", 30", 36" D x 1" thick top
