Prices include freight charges, blanket wrapped, dock delivered, from the manufacturing source to any location in the contiguous United States. Packing and/or crating are available, if required, upcharges apply.
Libraries, learning centres and other public spaces aren’t static environments; they require technologically advanced, computer-compatible furniture that can be easily reconfigured, added to, and set at just the right height for people – whatever their age and level of mobility. These venues also need to make efficient use of all available floor space, even awkwardly shaped spaces.

In response to the real furniture needs of libraries and other facilities, Nienkamper is proud to introduce Vox Monogram Tables.

INTEGRATED FINISHES PROGRAM

The Integrated Finishes Program (IFP) is a collection of materials, surfaces, colours and species that all work together to provide the best possible combination of quality and value.

This program brings together the finest real wood finishes with a co-ordinated printed paper melamine and matching high pressure laminate palette.

These co-ordinated materials provide a wide range of contemporary finishes that ensure whatever your budget there is an option that will be beautiful, enduring and cost effective.

**IFP STANDARD VENEER GRAIN**

All IFP finishes are standard with flat cut book-match veneer.

![Veneer Sample](image-url)
The Vox Monogram series is designed to provide a flexible computer workstation for libraries and public spaces.

The basic element is a triangular top that is supported by a 2 ¾” diameter leg and an 18” diameter counter balanced base. Monogram tables can be nested in a pentagonal shape with up to 5 individuals working around a single power/data source.

The shape of the table top also allows it to be rotated beside adjoining tops. This option provides the opportunity to join a series of tables in a large range of geometric configurations.

A pneumatic height adjustable column is also available adding flexibility for reducing heights in junior areas or standing height requirements. An optional lockout feature ensures that patrons do not access the height adjustable feature when it is not required.

Standard features include:
- 2” x 4” plastic grommet in warm or cool grey as well as black or white
- ¼” thick top with laminate and a 2 mm thick high impact acrylic edging
- Or wood veneer with 1/8” solid wood edging
- Pencil round edges
- Metallic silver painted disc base and column

A thin wooden shroud is an optional feature that provides both a privacy screen as well as a substantial concealment for electrical components and cables that exit the backs of computer equipment. Shrouds have small aluminum pins attached to them that are then mounted into the top.

Joiner brackets connect Monogram table bases together, ensuring that spacing around tables as well as core towers is maintained when multiple tables are combined. This is particularly important to prevent pinching between height adjustable surfaces. Joiner plates are predrilled to accept any position possible for each table.

Lorem ipsum
**Product Description**

The Vox Core Tower acts as the hub of the Monogram Series, in part because of its geometric centre in the design but also because it provides all of the power and data connections for the system.

**Hard-wired Power/Data**

Removing the lid of the Core Tower reveals a vertical metal channel that houses 5 duplex receptacles and 5 data jacks that provide connections for up to 5 individual Monogram tables.

All of the connections that feed the Core Tower must be hard wired from the building source at the time of installation. The power system is supplied with 3 separate circuits, one or all of which may be used when connecting to the building feed.

**Soft-wired Power without Data**

Core towers may also be ordered with a pair of power bars (relocatable power taps). These units are mounted vertically inside the Core Tower and include a total of 10 individual power outlets and 25' cords for each power bar.

*When selecting a veneer core tower an optional pie grain pattern is available on the lid.

Add $150 list

**Supplemental Support Plate**

- **Silver** 57514 20" 19 1/2" 3/16" $500
- **Black** 57515 20" 19 1/2" 3/16" $500

Core Tower support plates give Core Towers additional stability if it is not possible to fix core towers to floor surfaces. The plate is attached to the bottom of the core tower increasing its diameter to 20". Small guides on the underside of the plate compress into carpets preventing core towers from moving.
VIEWS OF DOUBLE SIDED POWER CHANNEL

*LINE 1 RECEPTACLES
POWER CHANNEL COMES EQUIPPED WITH ALL RECEPTACLES ON CIRCUIT 1

*LINE 2 & 3 RECEPTACLES
ALTERNATIVE CIRCUIT OUTLETS

HARD-WIRED - VOX CORE TOWER
DESIGN - MARK MÜLLER

EXTERIOR COVER - SLIDES OVER THE INTERNAL BASE

THE INTERNAL FRAME CAN BE MOUNTED TO THE BUILDING FLOOR AT ITS BASE

Soft-Wired Power / Hard-Wired Data

This floor mounted cable manager “Power Bridge” is intended to protect and cover cables which may be placed over traffic areas. Made of aluminum and anodized clear it has a removable strip that allows for concealing attachment screws. It can also be mounted with 2 sided tape. This cable manager has two separate cavities that accommodate 10 data style cables or three 16 gauge power cables in each cavity.

NOTE: Custom lengths can be ordered. Contact Customer Service at 1.800.668.9318 for pricing.

CPU shown @ 16 3/8" D x 15 3/4" H x 7" W

The power / data cord exits the core tower in the corners along the floor.

* Refer to installation guide for specific wiring instructions

TERMS AND CONDITIONS OF SALE

PRICES
All prices are list prices, freight included, blanket-wrapped, dock delivered, from the manufacturing source to any location in the contiguous United States.

Brokerage is paid by Nienkämper for product shipped to the United States.

Due to existing conditions in regard to cost of labor and materials, we reserve the right to change prices without notice.

TERMS
Net 30 days from date of invoice to accredited buyers. Two per cent (2%) interest charged monthly on overdue accounts. Deposit of 50% is required with order. Terms will be established upon credit evaluation. Due to delays in processing references, first orders may be treated as C.B.D. orders.

ORDER CONFIRMATION
Orders are accepted upon issuance of our order confirmation and are subject to the terms set forth therein; notwithstanding any variance from the terms of the buyer’s order form.

Nienkämper is not liable for any delay or failure to deliver caused by labor or transportation difficulties, accidents, acts of God, failure of sources of supply, or other causes beyond our control, and changes will affect the delivery date.

CHANGE OF ORDERS OR CANCELLATIONS
Changes or cancellations are subject to our ability to conform. A charge will be levied against cancelled or changed orders based on costs already incurred by Nienkämper. All changes must be in writing and submitted on a revised purchase order. Changes will affect the delivery date.

STORAGE
If goods cannot be accepted when ready, we may transfer them to storage (which is to be deemed as delivery for invoice purposes). The customer accepts risks and will be charged at prevailing rates.

FREIGHT
Prices include freight charges, blanket-wrapped, dock delivered, from the manufacturing source to any location in the contiguous United States. Packing and/or crating are available, if required, upcharges apply.

CLAIMS
All furniture is given to the carrier and signed for in good condition. It is the responsibility of the receiver to sign for the goods in the presence of the carrier and note the condition in which they are received. Freight claims should be filed with the carrier.

WARRANTY
There are no express or implied warranties, conditions and obligations of the manufacturer, whether statutory or otherwise that extend beyond the description on the face hereof. Our furniture is made to the highest standard and is warranted free from defects of material and workmanship for five years from the date of delivery. During the warranty period we will repair or replace such merchandise as shall prove to be defective, during normal usage in accordance with manufacturer’s specifications. The manufacturer shall not be liable for defect wholly attributable to normal manufacturing process. Replacement or repair of the Product shall be the sole remedy of the Customer, and the manufacturer shall not be liable for any direct, indirect, incidental, or consequential loss or damage suffered by the Customer by reason of any defect in workmanship or manufacture of the Product or inability to use the Product. Moreover, this warranty does not cover accidental damage, abuse, alteration, ordinary wear and tear of Goods, negligence and misuse nor variations over which we have no control such as heat or humidity or damage to which the Goods are connected that is not attributable to the failure of the goods themselves. This warranty is null and void when the product is installed with hardware other than that supplied and/or when installed differently than recommended in the installation guide. Modification to the product or hardware may result in failure of the product and cause damage and/or injury.

WOOD FINISHES
Nienkämper offers a wide variety of standard light finishes on cherry, mahogany and figured anagre wood veneers, and a clear natural finish on figured anagre, figured sycamore, maple, bird’s eye maple and curly maple.

Light finishes do not mask the grain and other characteristics of each wood species. It is important to understand that pieces of the same type of wood will not look identical when a light finish is used. The appearance of the finish will also depend on the natural color of the veneer. Cherry darkens over time as the wood ages. Pin knots and gum pockets are inherent traits.

Wood is a naturally variable raw material; its variances are not within the furniture manufacturer’s control and are therefore not considered defects under this warranty.
