STANDARD FEATURES
The Vox® Presentation Wall is a complete system of sliding panels which can accommodate a range of communication and presentation needs.

The Vox Presentation Wall is comprised of:
- 2 anodized aluminum rails:
  - in clear (silver) finish;
  - easily mounted to the wall;
  - with positive stops for panel placement
- 5 panels:
  - 1 Rear Fixed Panel, 48” w x 35-7/8” h
  - 2 Intermediate Moveable Panels, 24” w x 38-3/8” h
  - 2 Exterior Moveable Panels, 24” w x 42” h
  - all fabricated from a light-weight multicore sheet
  - framed with clear anodized aluminum trim

Panel Options:
Rear Fixed Panel Options:
- laminated writing surface
- magnetic writing surface
- white vinyl projection surface
- white vinyl combination writing/projection surface

Writing surfaces include 4 dry-erase markers and eraser:
White vinyl projection surfaces are coated and heat-embossed with a bi-directional pattern for maximum picture clarity; 4:3 aspect ratio.

Note: Rear Panel must be specified individually with the writing/projection surface option required.

Intermediate Moveable Panel Options:
- laminate writing surface
- magnetic writing surface
- tack panel

Writing surfaces include 4 dry-erase markers and eraser.

Tack Panel surface is a self-healing grey material.

Note: Intermediate Panels may be specified individually with different surfaces.

Exterior Moveable Panel Options:
- Standard Nienkamper veneers and stains (see page 10)
- Unika Vaev panel fabric (graded in)
- COM panel fabric (1-1/2 yds required)

Note: suggested mounting height 40” from floor level to underside of bottom rail.

Model # 23494/2
The Vox® Presentation Wall is a complete system of sliding panels which can accommodate a range of communication and presentation needs.

Model # 23494/2
Exterior panels are fully open to expose intermediate panels with tackboard surfaces.

Model # 23494/2
Intermediate Tackboard panels are partially open revealing the fixed rear projection screen panel.

Model # 23494/2
The intermediate tackboard panels are fully open and concealed under the exterior panels, exposing the fixed rear projection surface. When opened the center portion of the rail (60” width) may be used as a Presentation Rail.
Vox Whiteboards with rails consist of a wall-mounted writing surface that includes aluminum trim and an aluminum ledge. The aluminum ledge can be used for storing writing materials or as a presentation ledge.

Vox Whiteboards are also available with a dual writing and magnetic surface specified by model number.

All panels are fabricated from a lightweight multicore sheet.

Suggested mounting height is 40” from the floor to underside of rail for small models and 36” from the floor to underside of rail for medium and large models.

Vox Whiteboards are simple to install. An aluminum cleat is preinstalled at the top and bottom of the panel that in turn fits into cleats that are supplied, for wall-mouting on site.

The standard finish is a clear anodized aluminum finish. Additional anodized aluminum finishes are available, refer to page 13.

Each Vox Whiteboard ships with 4 colored dry erase markers, and eraser.

The Vox® Presentation Rail is an effective and simple solution for providing a wall mounted display system. This rail may be used as a ledge for displaying presentation panels, art work or any other graphic in boardrooms or hallways within the office.

The Vox® Presentation Rail may also be used as storage for whiteboard dry erasers and pens, when used with large wall mounted writing surfaces.

- **NOTE:** rails are stocked in two sizes but may also be cut to size in maximum increments of 120”.
- It is recommended that custom configurations are installed wall-to-wall as custom cut lengths do not have finished anodized ends.
- If custom sizes are specified and finished anodized ends are required, add $50 list per cut end.
- Call Customer Service at 1.800.668.9318 for details and pricing.

The Vox Presentation Rail is very simple to install.

The standard finish is clear anodized aluminum. Additional anodized aluminum finishes are available (refer to page 13).

<td>Vox Whiteboards with doors are ideal for small to large meeting rooms that are used for presentation and communication purposes. Once the doors are opened, a combination writing and projection surface is exposed. Standard features are an aluminum ledge under the writing surface as well as a set of dry markers and an eraser. Doors hinge completely parallel to the wall and have a ¼&quot; self-healing grey tackable surface on the interior. The medium and large sizes are provided with two aluminum posts for hanging a paper pad on either side. The small cabinet does not accommodate a paper pad. The doors and cabinet frame are finished in standard Nienkämper wood veneers and stains. The exterior of the doors may also be upholstered in fabric. All doors have aluminum trim on all edges. Trim is standard in clear anodized aluminum, but is also available in the other anodized colors to match the rest of The Vox Collection (see page 13). The interior depth of the cabinet is 4&quot;. Vox Whiteboard cabinets are easily wall-mounted using the hanging cleat provided.</td>
